- \$10 million example:
- $\$ 10$ mill * $500 \%=\$ 50$ mill after 10 days
- Assume all is returned for 'compounding' (not required to return for compounding)
- $\$ 50$ mill + original $\$ 10$ mill $=\$ 60$ mill * $5=\$ 300$ mill after next 10 days
- Repeat for 3rd cycle: Now $\$ 310$ mill * $5=\$ 1,550,000,000$
