

FAQ TRADE CASH BLOCKED FUND

I WILL PROCEED ONLY IF 1.1B+5B IN FULL (50:50 OF 2.2B+10B) PAID TO MY NOMINATED ACCOUNTS WHICH MUST BE OPEN BY MERCHANT/PLATFORM WITH ANY INTERNATIONAL MAJOR BANK ANYWHERE, FREE OF CHARGE (NO MONEY WILL BE PAID IN ADVANCE, MAY BE DEDUCTED FROM BUSINESS INCOME). ANY DEVIATION FROM THE ABOVE IN ANY TIME BY THE SIDE OF THE TRADING PLATFORM WILL LEAD TO MY TERMINATION OF SERVICES WITH THEM.

First of all, The JV agreement, to share the results of the platform, requires a single reception account and that in principle will be your account, your company; or a paymaster, who is responsible for executing the instructions you give.

1. Normally we advise that the first collection of 40 million be sent to a Paymaster (Lawyer), who can also open an account or several accounts, as you consider necessary... and prepare the bank on your behalf for any request for documentation.

All funds from the Platform (Your share and Ecco share) will be paid into the Paymaster account on a weekly basis and the Paymaster will distribute or dispatch funds according to the instructions you will give to the Paymaster based on the JV agreement.

In this case, the costs of the Paymaster will be borne by Ecco Online hence; you will receive your full amount.

(With platform funds, it is always recommended to have a Financial Lawyer, an expert in this type of transactions and investments, due to the documentation that they are used to present to the bank with each deposit.) We work with a Paymaster who is an international lawyer and can do this work for you.

2. The following Banks can initially be used to open an account for you:
Swiss quote Bank (Swiss, Dubai, Singapore, Hong Kong), HSBC PLC, Barclays PLC, U.S. Bank (You must indicate the territorial jurisdiction that you consider best).

Note: This option of the Paymaster for us is the best option, because he receives and distributes funds as instructed and generates the necessary tax documentation for his account and ours based on the results of the platform.

3. In your case, for a 1B blocked fund, the figures are 50|50 of 2Billion meaning 1Billion for you scheduled at (20Million every week for 50weeks)
4. In relation to the humanitarian funds of 10Billion during the year, you are entitled to 50% (minimum) of these funds for any socio-economic project that you plan to carry out. The same goes for Ecco Online.

The Church pays into your account upon presentation and analysis of the projects. They will send the money to your account or any account that you have opened to develop the said projects.

You can count on Ecco On line's advice at any time for the benefit of our agreement.

5. If you agree to this, we can have all documentation ready this week coming (JVs and other docs) then work on the shipment of the MT799 Blocked Fund to the church designated bank. Everything has already been agreed with the Church.
